

Irish Edible Flowers by Bumble Bee Farm

Ruby Harte is the brand but Bumblebee Flower Farm is where all the flowers are lovingly cultivated. What started just as an eco-conscious flower farm aimed at providing safe, chemical-free flowers for weddings and events, has blossomed since 2011 and now boasts Ireland's first Edible Flower farm, where everything is grown using organic practices, working with nature in a safe sustainable manner.

Being environmentally friendly, protecting the flora and fauna and working with nature are things that are at the core of their business. They produce a wide variety of vibrant edible flowers including a sweet and savoury range, ideal for great garnishes and to top dishes with a flourish. Flowers are available individually or as a mix of varieties.
